Healthcare Associates of Texas Expands McKinney Footprint with Addition of New Provider and Medical Practice, Kavitha Moolamalla, MD

Irving, TX (April 17th, 2018) – Healthcare Associates of Texas (“HCAI”), a portfolio company of Webster Capital and full-service primary care practice management company operating in the Dallas / Fort-Worth region, has partnered with the medical practice of Kavitha Moolamalla, MD in McKinney, Texas, further expanding HCAI’s services across North Texas.

One of the major hallmarks of Dr. Moolamalla’s practice is her highly committed and loyal patient base. Dr. Moolamalla’s patients consistently return to her practice because of her dedication to providing patient-centric, high-quality primary care services with a focus on the entire family. With 18 years of experience providing care in the North Texas area, including 5 years in the same facility as the HCAI McKinney location, Dr. Moolamalla brings unmatched value to the HCAI family.

“Dr. Moolamalla takes great pride in getting to know her patients and their families,” said Christopher Lawrence, MD, Medical Director for HCAI’s McKinney clinic. “I’ve had the privilege of working across the hall from Dr. Moolamalla for the last year, and I’ve seen firsthand how much she genuinely cares about her patients’ well-being, which is a value that aligns with HCAI’s philosophy of care. We are excited to welcome Dr. Moolamalla and her patients into the HCAI family.”

Webster Capital initially invested in HCAI to help the physicians expand their delivery model and platform and provide exceptional care and service to patients throughout the DFW region. HCAI continues to expand its provider network and enhance its primary care continuum.
