

## Healthcare Associates of Texas Expands North Texas Footprint with Addition of Two New Locations

Irving, TX (September 25<sup>th</sup>, 2018) – Healthcare Associates of Texas (“HCAAT”), a portfolio company of Webster Capital and full-service primary care practice management company operating in the Dallas/Fort-Worth region, has partnered with the medical practice of Dr. Greg Maul, which operates from locations in Rowlett and Heath, Texas, further expanding HCAAT’s services and care in the North Texas region. Dr. Maul’s Family Practice employs two physicians, including Dr. Greg Maul and Dr. Lien Lam, and two physician assistants.

For over 20 years, Dr. Maul’s practice motto has been “*Sick Today, Seen Today*”. This guiding principle, along with his commitment to providing high-quality, patient-centric care from start to finish, has driven the success and growth of Dr. Maul’s practice. His level of attentiveness to patient needs aligns directly with HCAAT’s core philosophy of care.

“We are thrilled to have partnered with Dr. Maul and his practice,” said Dr. Walter Gaman, Founding Partner and Executive Chairman of HCAAT. “He built his practice on the concepts of being available when others weren’t, and ensuring that his patients are well-served. That dedication to patient care is exactly what HCAAT is looking for. As we expand into these two new cities, we will have the opportunity to build upon the practice’s solid foundation and further enhance HCAAT presence in North Texas.”

Webster Capital initially invested in HCAAT to help the physicians expand their delivery model and platform in order to grow the practice throughout the DFW region. Today, HCAAT continues to expand its provider network and enhance its commitment to providing a comprehensive continuum of primary care services.
